*Colombo Design rende disponibile un servizio di personalizzazione dei prodotti della linea Antologhia. Se già la scelta del brand è un'espressione di sé, la personalizzazione di un prodotto esalta la diversità, trasformando un prodotto in un oggetto unico ed esclusivo. È una chance per il brand e il consumatore allo stesso tempo. È l'inizio di un nuovo rapporto, intimo e confidenziale, una sorta di via d'accesso preferenziale. Ma non basta, per questo motivo c'è tutto il resto: le sensazioni, il piacere e il saper raccontare e vendere emozioni.*

*Occasional porosità o corrosioni o rugosità, che costituirebbero difetto e ragione di scarto nei comuni prodotti usciti da stampi meccanici proprio per essere identici, in oggetti di questa collezione - realizzati invece con tecniche antiche quali la fusione in terra e l'intervento della manualità - rappresentano una certificazione di autenticità e unicità. L'ossidazione nel tempo dell'ottone non verniciato forma una patina tipica degli oggetti che non hanno subito trattamenti, attestando la veridicità e l'artigianalità della collezione.*

*Data l'artigianalità dei prodotti tutti gli articoli verniciati possono presentare tracce di puntinature evidenti sulle superfici lisce.*

*Colombo Design makes available a customization service for the products of the Antologhia collection. If the choice of the brand is already an expression of oneself, the personalization of a product enhances diversity, transforming a product into a unique and exclusive object. It is a chance for the brand and for the consumer at the same time. It is the beginning of a new, intimate and confidential relationship, a sort of preferential access route. But that's not enough, for this reason there is everything else: the sensations, the pleasure and knowing how to tell and sell emotions.*

*Occasional porosity, corrosions or wrinkles in this collection, that would usually be treated as defects and therefore waste in a normal production with mechanical moulds, gives it the proper taste of the antique manufacturing process, such as the heart sand casting and the handcrafts works, awarding it with a certificate of authenticity and originality. Natural brass oxidation along the years bring about a typical patina on the object surface, which haven't been treated, awarding the authenticity and the craftwork of the collection.*

*Because of the craftsmanship of the products, all varnished treated items may show evidence of lacquer dots on flat surfaces.*

*Nascono da una selettiva ricerca tra i modelli del passato le nuove maniglie ora proposte dalla Colombo design. Si è puntato a ritrovare, nelle varie epoche dello stile, il valore esemplare e sempre attuale della bellezza.*

*La forma, come ha scritto un grande storico dell'arte, è precisa definizione della materia e dello spazio, "ma è anche suggestione, si estende e lievita nell'immaginario".*

*In queste nostre scelte la forma evoca e restituisce il senso di una lontana civiltà del vivere.*

*Da più di un secolo si tenta di contrastare l'impoverimento indotto dalla adozione di processi meccanizzati nella fattura degli oggetti d'uso quotidiano.*

*L'industrial design ha dato risposte a volte geniali a questa esigenza di qualità, ma sempre puntando su soluzioni coerenti con i moderni mezzi di produzione e a questi vincolate. Non ha avuto invece né la pretesa né la possibilità di rispondere alla domanda, più radicale e raffinata, di chi rimpiangeva il calore e il pregio non surrogabile che le cose avevano quando a dar loro corpo e linea era direttamente la mano dell'uomo. Anche sotto questo rispetto le maniglie della Colombo design si possono dire fasciose macchine del tempo. Costituiscono infatti molto più che un semplice ritorno a remoti modelli: e non solo perché funzionalità, profili, volumi, materiali sono stati oggetto di un'attentissima rivisitazione progettuale.*

*A caratterizzarle e a qualificarle è pure il ricupero, nella loro fabbricazione, da un lato della manualità sino in fase di rifinitura e dall'altro di tecniche quali la fusione in terra.*

*Ne consegue, tra l'altro, un istruttivo capovolgimento nei criteri stessi di valutazione: occasionali porosità o tracce di corrosione o rugosità, che costituiscono difetto e fanno scarto nei comuni prodotti usciti da stampi meccanici proprio per essere identici, ridiventano - come sempre nei manufatti - preziose aggiunte: certificazioni di autenticità e unicità, magiche e visibili carezze del caso a un'opera dell'uomo.*

*The new handles proposed now by Colombo design emerged after careful search among selective models of the past.*

*They are aimed at rediscovering, in various eras of style, the exemplary and timeless value of beauty.*

*The shape, as a great art historian wrote, is a precise definition of matter and space, "but it is also fascination, it stretches and elevates the imagination."*

*In these choices of ours, shape evokes the sense of a distant civilization of living.*

*For over a century we have been trying to counter the impoverishment caused by the adoption of mechanized processes in the manufacturing of everyday objects.*

*Industrial design has at times given brilliant answers to this need for quality, but always focusing on solutions that are consistent with and bound to these modern means of production. But it had neither the pretensions nor the opportunity to answer the question, more radical and refined, of those who missed the warmth and irreplaceable value things had when it was man's hands that gave them body and line.*

*Along these lines Colombo's handle can also be called fascinating time machines.*

*They constitute in fact much more than a simple return to ancient models.*

*Not only because functionalities, profiles, volumes, materials have undergone very careful planning study. To characterize them and qualify them is also the recovery, in their manufacture, on one side of the manual the dexterity during finishing and on the other the techniques like sand casting.*

*It follows, among other things, a reversal in educational evaluation criteria themselves: occasional signs of corrosion or porosity or wrinkles, that would usually be treated as defects and therefore waste in normal production with mechanical molds, become again - as always in products - valuable additions: certification of authenticity and uniqueness, and magical visibility caresses the case to a human work.*

*Idea antica e oggi potenziata da affinatissime tecnologie, la fusione è un intervento creativo sul metallo con il concorso essenziale di due elementi primordiali: terra e fuoco.*

*Al principio di tutto c'è lo stampo, fatto di un'umida sabbia argillosa, che accoglie per pressione l'impronta dei modelli originari che si vogliono riprodurre e la fissa in due parti, un sopra e un sotto, combacianti come le valve di una conchiglia.*

*Aperto poi lo stampo e estratti i modelli, si predispose un sistema di canali in cui il metallo fuso potrà scorrere nella sabbia e raggiungere le cave forme che vi sono state definite.*

*Ora è il momento più suggestivo e dalle immagini si capisce perché un tempo si vedesse nella metallurgia l'arte di un dio chiamato Vulcano.*

*L'ottone, portato allo stato liquido in un forno ad alte temperature e prelevato con tazze di colata, viene versato nei canali dello stampo attraverso appositi pozzetti a imbuto. E' ancora incandescente.*

*Old idea, and now augmented by refined technologies, the casting is a creative intervention on the metal with the help of two essential primordial elements earth and fire.*

*At the beginning of everything there is the mold, made of damp clayey sand, that houses, by pressure, the footprint of the original models that are to be reproduced, and holds it in two parts, one above and one below, that fit together like the halves of a shell.*

*Opened the mold and then extracted the models, a system of channels is set up in which the molten metal can flow into the sand and reach the hollow shapes that have been defined.*

*It is now the most striking moment and you will understand why once the art of metallurgy was seen in a god called Vulcan.*

*Brass, led to a liquid in a furnace at high temperatures and collected with cups of casting, the mold is poured into the channels through appropriate wells funnel. It's still hot.*

*Quando l'ottone dai circa mille gradi che aveva raggiunto nel forno torna alla normale temperatura e allo stato solido, si rompe lo stampo. Con una sega - è come il taglio del cordone ombelicale - si separano dai canali di fusione i pezzi ottenuti e si passa alla loro rifinitura.*

*When the brass, from about a thousand degrees in the oven, reaches back to normal temperature and the solid state, it breaks the mold. With a saw - it's like cutting the umbilical cord - are separated by channels of the pieces obtained by casting and go to their finishing.*

*Sapiente rifinitura a mano, per la quale ci si avvale di scalpelli, frese, lucidatrici. Fino all'ultimo, è la ricerca della qualità.*

*Skillful hand finishing then follows for which we make use of chisels, cutters, polishers. Until the end, it is the pursuit of quality.*

*... e un attimo dopo fu accanto alla baronessa Anna che già afferrava la maniglia della porta.  
“Perdoni! disse sottovoce, quasi che nessun altro degli astanti fosse degno di udirla. Ecco l’anello”.  
Così dicendo ficcò l’anello di Harry in mano alla baronessa; e questa tutt’ a un tratto su quella stessa mano sentì il visetto largo e acceso della ragazza.  
E una felicità, una soave, calda, arcana felicità le fece per un attimo chiudere gli occhi ...*

*Thomas Mann,  
Felicità (1904)*

*... and a moment later he was already next to the Baroness Anna that was already grabbing the door handle.  
“Excuse me! He said softly, almost no one else of the bystanders was worthy to hear it. Here is the ring”.  
So saying, he shoved the Harry ring in hand to the baroness, and all of a sudden he felt on the same hand that little wide and flushed face of the girl.  
And a happiness, a gentle, warm, mysterious happiness made her close her eyes for a moment ...*

*Entrarono in una sala di dove si  
accedeva direttamente  
nell'appartamento del principe  
Vassilij.*

*Mentre madre e figlio, fermi in  
mezzo alla sala, si accingevano ad  
interrogare un vecchio domestico  
che al loro ingresso si era alzato da  
uno sgabello, si mosse la maniglia  
di bronzo di una delle porte,  
e il principe Vassilij in giacca di  
velluto da casa, con una sola  
decorazione, uscì, accompagnando  
un bell'uomo dai capelli neri.  
Era questi Lorrain, il famoso  
medico di Pietroburgo.*

*Lev Nicoàevic Tolstòj,  
Guerra e Pace (1863)*

*They entered the large hall,  
from which one of the doors led  
to the apartments assigned to  
Prince Vasili.*

*Just as the mother and son, having  
reached the middle of the hall,  
were about to ask their way of an  
elderly footman who had sprung up  
as they entered, the bronze handle  
of one of the doors turned and  
Prince Vasili came out - wearing a  
velvet coat with a single star  
on his breast, as his custom when  
at home - taking leave  
of a good-looking, dark-haired man.  
This was the celebrated Petersburg  
doctor, Lorrain.*

*"Grazie, lui mi conosce",  
disse Scrooge, che aveva già la  
mano sulla maniglia della sala  
da pranzo. "Entrerò qui, mia cara."  
Fece girare la maniglia pian piano,  
e si affacciò alla porta semiaperta.  
Stavano guardando la tavola  
apparecchiata con un gran lusso,  
perché i padroni di casa, quando  
sono giovani, sono sempre nervosi  
su questo punto e vogliono esser  
sicuri che tutto sia in perfetto  
ordine.*

*Charles Dickens,  
Un canto di natale (1843)*

*"Thank'ee. He knows me",  
said Scrooge, with his hand  
already on the dining-room lock.  
"I'll go in here, my dear."  
He turned the handle gently, and  
sidled his face in, round the door.  
They were looking at the table  
(which was spread out in great  
array); for these young  
housekeepers are always nervous  
on such points, and like to see that  
everything is right.*

*“È una donna”, lo fermò, le dita  
aggrappate alla maniglia, gli occhi  
spalancati.*

*Egli sentiva tutto il suo antico  
animo filiale ribellarsi in quella  
immobilità e tirarlo indietro;  
ma quello nuovo, ancora timido,  
eppure già forte, lo costringeva a  
fissare spietatamente  
gli occhi riluttanti là dove il giorno  
prima non avrebbe osato levarli.*

*Alberto Moravia,  
Agostino (1944)*

*“Is a woman”, he stopped him,  
fingers gripping the handle,  
eyes wide.*

*He felt all his former rebel in the  
soul of a child still coming back;  
but the new one, still shy, but  
already strong, forcing him to fix  
his eyes fiercely reluctant to where  
the day before would not have  
dared to remove them.*

*Lo ripose quasi con dispiacere fra  
le pagine, chiuse il libro e lo  
ricollocò sullo sgabello.  
Era tempo: la maniglia della porta  
girò ed un uomo si fece innanzi,  
camminando lentamente e con

between the pages, he closed the book

It was time: the door handle turned

slowly and with a stiffness that is  
typical of the men of the  
Anglo-Saxon race.*

*Era una specie di iniziazione alla vita, l'accesso ai piaceri proibiti; entrando posava la mano sulla maniglia della porta con un piacere quasi sensuale.*

*E allora molti lati nascosti del suo carattere si rivelarono: imparò canzonacce che cantava durante le bevute, si entusiasmò per Béranger, imparò a prepararsi il ponce e infine conobbe l'amore.*

*Gustave Flaubert,  
Madame Bovary (1856)*

*It was beginning to see life, the sweetness of stolen pleasures; and when he entered, he put his hand on the door-handle with a joy almost sensual.*

*Then many things hidden within him came out; he learnt couplets by heart and sang them to his boon companions, became enthusiastic about Beranger, learnt how to make punch, and finally, how to make love.*

*Mi alzai e percorsi il corridoio che  
portava alla stanza dove avevo  
lasciato il Viaggiatore nel tempo.  
Proprio mentre stavo premendo la  
maniglia della porta sentii  
un'esclamazione interrotta, uno  
scatto metallico, un tonfo.  
Nella stanza, un turbinare  
dell'aria, il suono di un cristallo  
che si rompeva sul pavimento.  
Il Viaggiatore e la macchina non  
c'erano più.*

*Herbert George Wells,  
La macchina del tempo (1895)*

*I got up and went down the passage  
to tell the Time Traveller:  
As I took hold of the handle of the  
door I heard an exclamation,  
oddly truncated at the end, and a  
click and a thud.  
A gust of air whirled round me as  
I opened the door,  
and from within came the sound of  
broken glass falling on the floor.  
The Time Traveller was not there.*

The Time Machine (1895)*

*La sala era ampia, la luce pioveva dall'alto e un'intera parete appariva ricoperta da una mostra di armi d'ogni foggia, gelida collezione di acciai su uno sfondo di stuoie e drappi.*

*Una piccola porta la metteva in comunicazione con lo studio. Dovevo solo allungare la mano e, fatto un passo, avrei raggiunto la magnifica maniglia di bronzo dell'uscio in ebano.*

*Joseph Conrad,  
La freccia d'oro (1919)*

*That room was very large, lighted from the top, and one wall of it was covered by trophies of arms of all sorts, a choice collection of cold steel disposed on a background of Indian mats and rugs.*

*Blunt used it as a dressing-room. It communicated by a small door with the studio.*

*I had only to extend my hand and make one step to reach the magnificent bronze handle of the ebony door.*

*Joseph Conrad,  
The arrow of Gold (1919)*

*Gadda si sistemò in una stanza  
insieme a un funzionario giovane  
di anni, ma un po' meno di  
aspetto, aggrottato e taciturno.  
Preferì che le due scrivanie fossero  
collocate una accanto all'altra  
proprio per non avere di fronte il  
corrugatissimo collega.  
Questo parlava poco, almeno nei  
primi giorni, ma si alzava  
continuamente fermandosi  
perplesso davanti alla porta con la  
mano sulla maniglia, poi apriva  
uno spiraglio con relativo cigolio e  
indugiava ancora pensoso mentre  
l'interiore incertezza gli si  
disegnava sulla fronte,  
moltiplicandone le rughe.*

*Giulio Cattaneo,  
Il gran lombardo (1911)*

*Gadda settled in a room with an  
official younger by years, but a bit  
less in appearance, frowning and  
silent.  
He preferred that the two desks  
were placed side by side in order  
not to have in front the corrugated  
colleague.  
This spoke little, at least in the early  
days, but he was used to get up  
continuously and stop perplexed in  
front of the door with his hand on  
the handle, then he was opening a  
glimmer with relative creaking and  
was delaying thoughtfully while the  
internal uncertainty was drawing  
himself on his forehead, multiplying  
the wrinkles.*

Il gran lombardo (1911)*
